DETAILED ACTION

1. Claims 1-9 are pending.
2. At page 1 of the specification, the continuing data should be updated to reflect the 371 application.
3. The following is a quotation of the second paragraph of 35 U.S.C. 112:

The specification shall conclude with one or more claims particularly pointing out and distinctly claiming the subject matter which the applicant regards as his invention.
4. Claims 1-6 are rejected under 35 U.S.C. 112, second paragraph, as being indefinite for failing to particularly point out and distinctly claim the subject matter which applicant regards as the invention.
 - A. At claim 1, are the radicals "acylaryl or acylheteroaryl" intended for the definition of R₁? Clarification is requested.
 - B. At claim 2, it suggested that the term "benzthiazole" should be amended to read in favor of --benzothiazole--.
 - C. At claim 3, it suggested that the named compounds should be rewritten. See the spacing of the named compounds.
 - D. At claim 4, it is suggested that the compound of formula (I) should be depicted.
 - E. At claims 4-6, there is no antecedent basis for the radicals defined in claim 1.
5. The Information Disclosure Statements filed July 14, 2006 have been considered. The prior art references alone or in combination form do not teach nor suggest structurally similar compounds as the instantly claimed invention. There is no

Art Unit: 1625

motivation to modify the prior art compounds to derive the claimed compounds.

Accordingly, no rejections based upon prior art are made.

6. Claims 7-9 are allowed
